## **DETAILED ACTION**

### ***EXAMINER'S AMENDMENT***

1. **Claim 15** line 1, change “Original” to “Currently amended” see noted **Applicant**

**Arguments or Remarks Made in an Amendment (dated 10/29/04) line 4.**

### ***Allowable Subject Matter***

2. Claims 1-12, 14-19 are allowed.
3. The following is an examiner's statement of reasons for allowance: The prior art fails to show an analog to digital conversion system including a plurality of cascaded successive approximation subconverter stages, each subconverter stage comprising a switched capacitor system receiving a thermometer coded intermediate digital signal, wherein the switched capacitor system comprises a plurality of capacitors having equal capacitance values; a switching system coupled to the plurality of capacitors; a second successive approximation subconverter stage comprising a second capacitor array, the second successive subconverter stage receiving the first residue output and providing a second multi-bit subconverter stage digital output representative of the first residue output and a second residue output representative of a difference between the received first residue output and the second subconverter stage digital output. Therefore, claims 1-12, 14-19 are presently allowed.

***Conclusion***

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
